PRESENTING THE ALL-NEW
3D COOL INVERTER AC
WITH VOICE AND WI-FI TECHNOLOGY

3D COOL TECHNOLOGY

3D Cool Technology ensures faster removal of hot air, leading to faster cooling of the room.

INTELLI-CONVERT™ WITH 8-IN-1 MODES

The all-new 3D Cool Inverter ACs are equipped with Intelli-Convert with 8-in-1 modes*. Now switch between different modes with the touch of a button.

UP TO 60% FASTER COOLING**

3D Cool Technology ensures up to 60% faster removal of hot air, leading to faster cooling of the room.

COOLS EVEN AT 50°C*

Backed by a powerful compressor, the 3D Cool Technology cools even in extreme temperatures of 50°C*.

VOICE AND WI-FI ENABLED

Connects to the future of cooling with the all-new 3D Cool Inverter AC via Google Home.

*Results shown are based on internal lab testing done on select models under specific conditions and may vary depending on testing conditions. **Tested against select comparable product of other brand available in this segment. *The air conditioner can be adjusted to 8 different modes.
